

SKYLINE YURT WINTER GUIDE²⁰¹⁶

The Skyline yurt is conveniently situated off the groomed Skyline trail, a popular loop used by Nordic skiers and snowshoers. The yurt provides easy access to over 20 miles of groomed and 50 miles of marked ski trails. The yurt is located on a high knob, which provides a 200-degree view to the east, south and west. The view from the yurt is one of the best in the Boise National Forest. The open, rolling terrain below the yurt provides beginner telemarkers a chance to polish their skills. Snow is usually available early December to mid-April.

PLEASE READ THE WINTER YURT MANUAL FOR MORE DETAILS

The yurt door lock has been removed during the winter season. You will find the door closed but not locked and no key code is necessary

Difficulty:

Advanced beginner to intermediate. The difficulty of touring trails can increase in poor snow conditions and weather. Snowshoeing is the easiest method to access this yurt. Skiers can expect short, steep sections of trail to herringbone up. Climbing skins are recommended for those with heavy packs. Individuals should be thoroughly prepared and travel with someone who has been to the yurt and can readily find it. The Skyline trail is generally groomed on Thursday or Friday from December 1 to March 15. You should not count on the trail being groomed, but a freshly groomed trail will substantially reduce the amount of energy necessary to get to the yurt.

Where to Park:

The Gold Fork Park N' Ski parking lot is 20 miles north of Idaho City on Highway 21, just past highway mile marker 59. An Idaho Park N' Ski permit is required to park here Nov 15th to Apr 30th. Please park your vehicles close together and parallel to the side of the lot, south of the toilet. The Department of Transportation snowplow operators become frustrated when they cannot completely plow the parking lot. You should also **bring a shovel** because you might have to dig your car out or in, in case of heavy snow. Do not park on Highway 21. You can be fined for parking on the highway or for not displaying a Park N' Ski Pass.

How to Get to the Yurt:

The trails are marked with blue and yellow diamond shapes, called blazes, attached to trees. The recommended approach to the yurt is to take the Summit trail to the first intersection of Skyline/Summit trails intersection, about 0.5 miles from highway, stay to the right on Summit Trail. Follow the blue blazes on Summit Trail for about 1.2 miles to the Skyline/Summit trails' intersection. Stay left on Skyline trail for about .3 miles. You will come to an open gate. Continue on the Skyline trail until you see the 2-foot yellow diamond shape blaze on a 4x4 post. Stay to the left and follow the 5" yellow blazes on the trees up the hill about 200 yards to the yurt. The yurt sits on the highest point in the area. **You cannot see the yurt from the 2-foot yellow signpost or from the Skyline Trail.**

Elevation Change and Distance:

About a 650 feet climbing over 2.3 miles (one-way). There are a few short steep sections.

Dogs:

Dogs are allowed at this yurt year around.

Solar Power:

This yurt has a solar panel with four LED lights. Should it be necessary, a brush is provided to remove snow from the panel. Please do not change the panel location. Use the lights when needed, turn them off when not in use and at the end of your stay.

Wood Pile:

Wood for the stove is located under the yurt deck.

Water:

There is no water supply at this yurt. Use the large pot provided to melt snow on the wood stove. We recommend boiling the water before drinking.

Special Equipment Needed:

Several members of the party should carry portable snow shovels. Bring two (2) one-pound propane bottles per each night of your stay; a roll of paper towels, and **keep a snow shovel in each vehicle**. For a list of recommended items for a yurt trip, please read the winter yurt manual.
